Camps

### Astronomy: June 22-26, 2015

During the astronomy camp students will explore the solar system, learn about astronomy, and discover the importance of satellites and Global Positioning System (GPS). Work with an astronomy mentor and scientist advisor using telescopes. Apply art to investigate, research, and build an understanding of the solar system, incorporating science and math focused problems to broaden understanding of other STEM fields.

Ever wonder what is in space?

Mobile Game Design: July 6-10, 2015

Expand knowledge and skills for designing with mobile technology. This mobile design camp teaches the fundamentals of games and design using smartphones and mobile devices. Aim to increase interest in software engineering and mobile technology of young entrepreneurs. Design a game, program and code, and refine strategies, business models and marketing pitches.

Explore Art in STEM learning!

All camps include the fundamentals of art in the curriculum to engage students, provide relevance, and innovate STEM learning. Students absorb deeper concepts and vital competencies of common core standards.

Join the fun and work in teams, solve problems, and actively explore STEM concepts.

Geared toward middle school age, but elementary age (younger) or high school age (older) are welcome!

Info

6th—8th Grade Middle School Students:

The program is geared towards middle school students to provide an opportunity to explore a career in STEM. Learn from university professors, graduate students, and industry experts about the many different career options that are available in the STEM fields.

Other Age Groups Welcome: In our career-centered learning camps, we encourage internships via peer-to-peer learning and are permitting other age groups to consider joining the camps. Please inquire if your older or younger student or child is interested and would like to attend the STEM programs.

Registration

Complete Registration and return to STEMPLOY *****Make check payable to STEMPLOY LLC.

Select the camp(s) that you would like to attend. Provide your relevant contact information in order to receive more details about each camp. Once this registration is received, we will enroll your student(s) in the workshop of their choice.
